VIVE LA REPUBLIQUE!!

First, Swallows of the Missouri geological Survey, claims that this State contains larger trees than California, and tells of a symphony 15 feet in circumference. That's hard to "swallow."

Gloomy! Gloomy! Ye Deum! New Hampshire reformed from the clutches of Radicalism. The Granite State swept by the Democracy, Governor, three Congressmen, and the State Senate Democratic! Thank God! Lightning striking at last.

Mohican has abolished the grand jury system. The district attorney is required to present all crimes by information, and if insufficient, can file a prosecution, except in cases which have first been examined by a justice of the peace.

Kosciusko--The County Court has appointed P. E. Hammond, registrar under the new registration law.

Govt--At the instigation of the ex-emancipated ex-slaves of a Columbia tannery, who are present before the Yankee presidential chair, a bill is introduced, and carried out of the Chairmanship of the Senatorial Committee on Foreign Relations--a place which has filled for the last ten years. A terrible blow to the South is the bill, and an irreparable split in the Radical party seems imminent. Let 'er split! We are sure.

Saint Patrick's Day--Yesterday, 17th March, was the anniversary of the birth of Saint Patrick, patron saint of Ireland. The day was observed in Lexington, imminent in full regalia, with the green scarf and the spiz of immortal shamrocks.

Beth. Father Frank O'Reilly, of Clinton county, as gay a priest and jolly a gentleman, as ever was a cassock, delivered an eloquent address, at the Catholic church, in memory of the saint of the same name.

He afterwards sang, in good baritone style, three or four stanzas of the famous old song, "Saint Patrick's Day in the Morning." All the services were closed with a procession through the principal streets of the city.

These in and about Waverley--A

great many improvements are going on in our little sister city. George Gordwin who was recently married, is building a handsome residence, in a central portion of the town. Capt. W. A. Reid has put up a new business house on the lever, and will hereafter run a first-class family grocery, as well as carry on his extensive warehouse and produce-shipping establishment. Arnold Winsor and the Brothers Brothers have great stores, and importers, by the almost unprecedented rush of goods, and the inability of the boats to take off. There are 50,000 sacks of corn now in store, and it is still pouring in, at the rate of 3,000 or 4,000 bushels a day. Seven large six-horse-power corn-shellers are kept constantly running in the neighborhood. They are owned and run by the warehouse men; and A. T. Winsor also shells 1,000 bushels a day. Over 150 tons of hemp have come in. About 50,000 bushels of wheat have been received, thus far, and it is estimated that there are still in the hands of the farmers, from 15,000 to 20,000 more, ready to be shipped.

Washington--The merchants are all laying in large and handsome stocks of goods. In spite of high taxes, traffic is rapidly increasing, and the trade is brisk, and prospects good. But the Tel and Nessie Railroad Bridge is not yet quite completed, so there is always some difficulty among all our citizens.

During the winter at Belmont, and Waverley, owing to the want of longitude, was dead in favor of Lexington. An appeal was taken.

In the Legislature, on the 1st inst., Mr. Mitchell of Lafayette, offered a concurrent resolution appointing a joint committee to examine the books and accounts of the Lexington and St. Louis railroad company. He said the company had subordinated profits and during the last ten days, the directors have now directed an investigation.
